

Q1 What best describes you?

Answered: 186 Skipped: 0

Answer Choices	Responses
CCA	70.97% 132
CPSS	3.23% 6
Not-certified agronomist or soil scientist	5.38% 10
ASA and/or SSSA member only	4.84% 9
Both certified and member	8.06% 15
Farmer	9.14% 17
Other	13.44% 25
Total Respondents: 186	

Q2 What part of North America are you located in?

Answered: 186 Skipped: 0

Answer Choices	Responses
North Central USA	44.09% 82
South Central USA	9.68% 18
Eastern USA	17.20% 32
Western USA	18.82% 35
Canada	6.99% 13
Mexico	0.54% 1
Other - not from North America	2.69% 5
Total	186

Q3 Did you attend the webinars live or did you download them at a later time?

Answered: 186 Skipped: 0

Answer Choices	Responses	
Live	56.45%	105
Later - Recorded version	43.55%	81
Total		186

Q4 Overall, I would rank the webinars as

Answered: 186 Skipped: 0

Answer Choices	Responses
Adding to my agronomy knowledge	93.55% 174
Not adding to my agronomy knowledge	0.54% 1
Neutral, added some but most I knew already	5.91% 11
Total	186

Q5 What cover crops related topics would you like ASA to provide in the future?

Answered: 108 Skipped: 78

#	Responses	Date
1	Cover crops that specific to regions of the country. Although principles and benefits of cover crops are similar to all areas, types of cover crops are region specific. I have difficulties advising producers on specific cover crops to use in desert southwest. Thank you so much for putting these webinars together for us to enjoy.	5/21/2017 2:03 PM
2	pulse crops and cover crops on cotton, wheat, grain sorghum and corn.	5/20/2017 9:36 AM
3	mixes to possibly benefit salt infected areas	5/20/2017 7:17 AM
4	Growth Regulator data and restrictions on export.	5/19/2017 4:11 PM
5	Mix Species and using cover crops as feed: pros and cons and what to watch for	5/19/2017 7:13 AM
6	Address the failures with cover crops and what we can do to be successful instead.	5/19/2017 6:46 AM
7	nematode suppression	5/19/2017 2:50 AM
8	Economics of cover crops in various systems.	5/19/2017 1:15 AM
9	More about cost effectiveness	5/18/2017 11:46 PM
10	just more about the different types and how they grow together.	5/18/2017 11:28 PM
11	Anything good for the soil	5/18/2017 10:48 PM
12	Different seeding applications / timing The Negative trials of cover crops. What could of been done or did to get a positive out come.	5/18/2017 9:53 PM
13	Remote sensors	5/18/2017 12:30 PM
14	Nutrients dynamics	5/18/2017 11:03 AM
15	Discussions on breakthroughs in genetics and new species	5/18/2017 10:05 AM
16	Cover crops that adapt well to California agriculture and it's demand for intensive cropping.	5/18/2017 8:43 AM
17	Cover Crop Systems for Minnesota with our cooler climate that are both economical, effective, and reliable.	5/18/2017 6:58 AM
18	how to change corn and soybean maturities planted, rotation options and harvest strategies to allow for more diverse cover crops that can be planted in late summer or early fall. southern wisconsin and northern illinois are currently limited to winter rye for successful cover crop establishment	5/18/2017 6:37 AM
19	Weeds relation with cover crops	5/18/2017 6:17 AM
20	about crop mixtures, fertility programs and herbicide options	5/18/2017 5:25 AM
21	cover crops that work well in heavy soils-with very little or no spring tillage available.	5/18/2017 4:39 AM
22	Cover crops in rice farming.	5/18/2017 4:28 AM
23	Cover crop management for nutrient release within cropping systems	5/18/2017 3:35 AM
24	I would like to learn about cover crops suitable for California vegetable or berry crop rotations. I advise growers in Ventura County California, about 40 miles north of Los Angeles. I know of only one grower using cover crops between bell pepper seasons. Usually economic factors prevent growers from leaving their fields fallow or under cover for any length of time in Southern CA. Unfortunately, frequent tillage and planting the same crops year after year has depleted organic matter and build up disease in the soil. Are there any 60-90 day cover crops I can recommend between berry or vegetable seasons?	5/18/2017 3:10 AM
25	Keep up the good work!	5/18/2017 3:02 AM
26	#1 - Impacts on Soil Health; #2 - Challenges of incorporating cover crops where farmers are concerned with cold and/or wet soils and short seasons (many farmers tell me: "That great for them, but cover crop won't work here because...." #3 - Grazing and Grazing techniques (i.e. Mob Grazing) or other side benefits/uses for cover crops.	5/18/2017 2:54 AM
27	different varieties and seeding timing	5/18/2017 1:54 AM

Cover Crops 2017 - Looking Beyond the Basics Webinar Series Survey

28	what species work for different purposes ie; weed control, organic matter increase	5/18/2017 1:40 AM
29	Data supporting the yield differences by using our most popular cover crop , cereal rye, in regard to different termination times and methods for both corn and soybeans.	5/18/2017 1:29 AM
30	alternatives to cover crops	5/18/2017 1:14 AM
31	Some soil information on organics and PH. Best practices to keep fertilizer from ground water. Herbicide resistance information	5/18/2017 1:07 AM
32	how to use cover crops to remediate an area that previously had GMO corn on it.	5/18/2017 12:55 AM
33	Getting cover crops into a corn-soybean rotation in Central Wisconsin.	5/18/2017 12:54 AM
34	crop species mix ideas, timing of planting after a crop harvest, termination other than herbicide	5/18/2017 12:53 AM
35	Pollinator cover crops	5/18/2017 12:50 AM
36	How to market cover crops, so they are a profit center instead of only a cost avoidance crop	5/18/2017 12:48 AM
37	organic systems	5/18/2017 12:41 AM
38	Anything, I'm pretty new to the topic so it all helps...termination, planting green, mixes, etc.	5/18/2017 12:40 AM
39	How to effectively use cover crops in the upper Midwest - SD, ND, MN	5/18/2017 12:37 AM
40	killing cover crops with herbicides	5/18/2017 12:27 AM
41	comparing natural cover versus planted cover crop and to see if there really is any benefit to planting versus just using what naturally grows over winter.	5/18/2017 12:25 AM
42	continued cover crop mixes and their challenges as well as their feed or grazing value	5/18/2017 12:23 AM
43	Mixes and disease potential	5/18/2017 12:21 AM
44	Long term effects on soil health	5/18/2017 12:20 AM
45	effective design of cover crop mixtures cover crops and soil biology	5/18/2017 12:15 AM
46	cover crops with forages	5/18/2017 12:05 AM
47	More so on the how to getting cover crops started. Showing a cost relationship between seed cost and how much they are reducing their chemical costs. Growers are all about seeing the numbers. Thanks.	5/17/2017 10:09 PM
48	not sure	5/17/2017 12:36 AM
49	Slugs in rye	5/15/2017 2:11 AM
50	Cover crops in the context of irrigated agriculture, as is the norm across most of the southwest and west. From the standpoints of cost and water use.	5/14/2017 11:45 PM
51	Organic farming topics	5/14/2017 8:37 AM
52	Discussion and use in permanent plantings - Tree Nuts, Stone Fruit, Grapes, etc.	5/13/2017 4:28 AM
53	Systems approach to cover crop management, within the context of row crop production Mechanical and chemical termination of cover crops, timing and relationship to row crop planting	5/13/2017 12:32 AM
54	seeding dates	5/12/2017 9:05 PM
55	I would like to have an in depth discussion about each of the common cover crops and how they address specific resource concerns.	5/12/2017 6:24 AM
56	Anything!	5/12/2017 12:35 AM
57	Cover crops as a form of weed management and the effects of cover crops on soil microbiology.	5/12/2017 12:10 AM
58	If possible long term data.	5/11/2017 3:00 PM
59	More of soil biology processes	5/11/2017 12:32 PM
60	How to establish the cover crop within the rotation of succeeding crops with emphasis on the right timing.	5/11/2017 12:26 PM
61	Weed suppression by cover crop	5/11/2017 7:00 AM
62	Economics,profits	5/11/2017 3:43 AM
63	These were very thorough- soil health, cover crops and the leaching of nutrients into water table etc., more info on how to include CC into a farmers rotation system, use of cover crops on surface irrigation systems.	5/11/2017 1:07 AM

Q9 Did you learn a specific practice or principle?

Answered: 150 Skipped: 36

Answer Choices	Responses
Yes	45.33% 68
No	54.67% 82
Total	150

#	If yes, what was the practice or principle?	Date
1	Cover crops host to Fv on certain leguminous plants, such as alfalfa, crimson clover, pea and hairy vetch. Corn and sorghum may be asymptomatic host.	5/20/2017 10:13 AM
2	rye	5/20/2017 7:18 AM
3	timing, species, tips	5/19/2017 4:12 PM
4	cover crop selections	5/19/2017 3:15 AM
5	proper timing	5/19/2017 2:50 AM
6	I forget....	5/19/2017 1:15 AM
7	Radishes	5/18/2017 10:49 PM
8	Termination of Rye before corn / at least two weeks prior. Heard different local recommendation.	5/18/2017 9:57 PM
9	Effective termination practices	5/18/2017 12:13 PM
10	not practical in my part of the west.	5/18/2017 8:45 AM
11	i would have to review the presentation to list a specific practice or principle	5/18/2017 6:38 AM
12	non-leguminous cover crops are non-hosts for SCN	5/18/2017 6:25 AM
13	Beneficial insect pest management	5/18/2017 5:51 AM
14	tillage aspects	5/18/2017 4:40 AM
15	I learned that some cover crops are hosts to crop pathogens and can act as "green bridges," so the grower or CCA needs to be sure to choose cover crops that will not provide habitat to existing soil borne pathogens.	5/18/2017 3:15 AM
16	Scouting is still the most important part of knowing what is going on in the field.	5/18/2017 3:04 AM
17	How the cover crops replace nutrients back into the soil	5/18/2017 1:45 AM
18	cultural practices	5/18/2017 1:14 AM

Cover Crops 2017 - Looking Beyond the Basics Webinar Series Survey

19	Brought knowledge level up to promote as it is not widely known in my area	5/18/2017 1:08 AM
20	Mixtures	5/18/2017 12:50 AM
21	to think about crop synergies	5/18/2017 12:49 AM
22	Planting Population	5/18/2017 12:34 AM
23	cover crops are specific for each farm	5/18/2017 12:08 AM
24	Planting species that support beneficial insects	5/14/2017 8:38 AM
25	not all cover crops will work in all settings	5/12/2017 9:06 PM
26	Termination of the cover crop	5/12/2017 6:24 AM
27	Mixtures	5/11/2017 12:27 PM
28	Using the time between main crop and the cover crop.	5/11/2017 3:45 AM
29	unsure	5/11/2017 1:00 AM
30	The difference in what cover crops can do for soil health	5/10/2017 11:43 AM
31	how to use cereal rye before soybeans	5/10/2017 9:23 AM
32	timeliness of seeding	5/10/2017 6:59 AM
33	Cover Crops are not a silver bullet for crop production	5/10/2017 6:51 AM
34	That scouting is very important both before cover crop termination and at planting time.	5/10/2017 6:49 AM
35	It has been too long ago to remember.	5/10/2017 5:07 AM
36	Species to use.	5/10/2017 5:03 AM
37	When to terminate	5/10/2017 4:44 AM
38	mitigate soil erosion	5/10/2017 4:33 AM
39	crimping	5/10/2017 4:30 AM
40	cover crops can double as supplemental forage in the right situation	5/10/2017 3:33 AM
41	Likely, but all the information that I intake gets blended together. Not sure what specifically, but likely something	5/10/2017 3:11 AM
42	herbicide selection	5/10/2017 3:06 AM
43	enhancement of microbials in the soil	5/10/2017 3:02 AM
44	Lotta water under the bridge - don't remember this webinar specifically.	5/10/2017 2:40 AM
45	IPM	5/10/2017 2:36 AM
46	The importance of termination and herbicide carryover issues...general timing and species are very important	5/10/2017 2:36 AM
47	cover crops as a bridge for disease vectors	5/10/2017 2:35 AM
48	green bridge	5/10/2017 2:33 AM

Yes	17.32% 22
No	66.14% 84
If yes, what was the practice or principle?	16.54% 21
Total	127

#	If yes, what was the practice or principle?	Date
1	On wheat rotation and not double-crop, you can seed bigger mix after wheat. This increases various plants and roots	5/20/2017 10:38 AM
2	termination ideas	5/19/2017 3:16 AM
3	Grower, Chris Teachout, talked about his experience intercropping cover crops. Although I say a researcher giving a presentation on intercropping at the last annual SSSA meeting, I was impressed to see a grower actually using the practice.	5/18/2017 3:21 AM
4	termination	5/18/2017 1:31 AM
5	Brought knowledge level up. Not widely known in my area	5/18/2017 1:10 AM
6	in a species mix, balance is important, ie grass/legume/brassica...	5/18/2017 12:54 AM
7	General practices on how to make them work on specific farms	5/18/2017 12:38 AM
8	Maximizing cover crop diversity	5/14/2017 8:39 AM
9	Planting directly into the cover crop that was grown - Soybeans into ryegrass.	5/13/2017 4:30 AM
10	Resource Concerns	5/12/2017 12:11 AM
11	Selection of cover crops	5/11/2017 12:32 PM
12	Crumpet roller	5/11/2017 7:02 AM
13	unsure	5/11/2017 1:01 AM
14	Better understanding of practices.	5/10/2017 12:17 PM
15	Really don't remember.	5/10/2017 5:08 AM

Cover Crops 2017 - Looking Beyond the Basics Webinar Series Survey

16	Tile drain studies show reduction in nitrate leaching with cover crops	5/10/2017 4:36 AM
17	Same as before. All the information just blends together. I cannot remember a specific principle.	5/10/2017 3:12 AM
18	I really liked the periodic table of cover crops.	5/10/2017 2:41 AM
19	Mixes of cc species	5/10/2017 2:40 AM
20	overall general knowledge of cover crops and implementation thereof was useful, some info was review, some was new to me	5/10/2017 2:37 AM
21	varieties of cowpeas that do well with interplanting	5/10/2017 2:34 AM

Q17 Did you recommend it to your clients to implement or implement it yourself this season?

Q23 Did you learn a specific practice or principle?

Answered: 97 Skipped: 89

Answer Choices	Responses
Yes	23.71% 23
No	60.82% 59
If yes, what was the practice or principle	15.46% 15
Total	97

#	If yes, what was the practice or principle	Date
1	The amount of nitrogen potentials various legumes produce. Buckwheat loosens the soil and makes phosphorus available to the next crop.	5/20/2017 10:39 AM
2	How some products break down.	5/18/2017 11:05 AM
3	Monitoring	5/18/2017 5:53 AM
4	I learned about the "soil my undies" technique to assess soil biological activity and improvements in soil health. I also appreciated the speaker listing out specific types of cover crops and their different uses.	5/18/2017 3:24 AM
5	Brought knowledge levels up. Not used in my area	5/18/2017 1:11 AM
6	Diversity of cover crops, the amount N added, & soil health	5/11/2017 12:41 PM
7	unsure	5/11/2017 1:01 AM
8	sampling- digital images and location create maps-- interesting	5/10/2017 7:54 AM
9	Some cover crop species draw some damaging insects that could damage the following annual crop.	5/10/2017 6:53 AM
10	Insect problems	5/10/2017 4:45 AM
11	Cant specifically remember but know that I always learn something valuable.	5/10/2017 3:12 AM
12	Timing of planting and plowdown	5/10/2017 2:54 AM
13	Planting "green" into a currently growing crop.	5/10/2017 2:43 AM
14	Improved IPM	5/10/2017 2:38 AM
15	techniques for DIY stand counts, biomass sampling, and infiltration tests	5/10/2017 2:35 AM

Q24 Did you recommend it to your clients to implement or implement it yourself this season?

Answered: 97 Skipped: 89

Answer Choices	Responses	
Yes	52.58%	51
No	47.42%	46
Total		97

Q25 Would you be willing to share the results?

Answered: 51 Skipped: 135

Answer Choices	Responses
Yes	29.41% 15
No	70.59% 36
Total	51

#	If yes, please provide a brief description and your email address in case we need to follow up with you.	Date
1	biglakes35@hotmail.com	5/19/2017 4:14 PM
2	When I have results.	5/18/2017 11:06 AM
3	Not used in my area enough to share results	5/18/2017 1:12 AM
4	kishoreramdoyal@yahoo.com	5/11/2017 1:12 PM
5	benton.floerke@gmail.com. Great program	5/10/2017 12:55 PM

Q26 Will you recommend it to your clients to implement or implement it yourself in the future?

Answered: 46 Skipped: 140

Answer Choices	Responses
Yes	76.09% 35
No	17.39% 8
If no, why not?	6.52% 3
Total	46

#	If no, why not?	Date
1	information wasn't relevant to my crops	5/10/2017 7:43 AM
2	Not in an advisory role.	5/10/2017 3:08 AM
3	Not applicable to Western Agriculture	5/10/2017 2:55 AM
