

Q1 What best describes you?

Answered: 227 Skipped: 0

Answer Choices	Responses
CCA	62.11% 141
CPSS	4.41% 10
Not-certified agronomist or soil scientist	4.41% 10
ASA and/or SSSA member only	6.61% 15
Both certified and member	14.98% 34
Farmer	9.69% 22
Other	12.33% 28
Total Respondents: 227	

Q2 What part of North America are you located in?

Answered: 227 Skipped: 0

Answer Choices	Responses
North Central USA	49.78% 113
South Central USA	9.69% 22
Eastern USA	18.94% 43
Western USA	10.13% 23
Canada	9.25% 21
Mexico	0.88% 2
Other - not from North America	1.32% 3
Total	227

Q3 Did you attend the webinars live or did you download them at a later time?

Answered: 227 Skipped: 0

Answer Choices	Responses	
Live	65.20%	148
Later - Recorded version	34.80%	79
Total		227

Q4 Overall, I would rank the webinars as

Answered: 227 Skipped: 0

Answer Choices	Responses	Count
Adding to my agronomy knowledge.	87.67%	199
Not adding to my agronomy knowledge.	0.00%	0
Neutral, added some but most I knew already.	12.33%	28
Total		227

Cover Crops for Ag Professionals Survey

Q5 What cover crops related topics would you like ASA and NC-SARE to develop and deliver in February 2017?

Answered: 134 Skipped: 93

#	Responses	Date
1	How to use cover crops on the Canadian Prairies.	8/15/2016 12:09 PM
2	Maybe something that gives you a better idea what cover crops work best in Canadian regions, if possible, because are weather is a bit cooler and things like turnips and radishes need a bit more time to develop before frost	8/15/2016 12:07 PM
3	Interactions as part of a no-till/minimal till system.	8/15/2016 10:03 AM
4	Profits from cover crops from growers	8/14/2016 2:17 PM
5	Urban Farm	8/13/2016 5:36 PM
6	winter rye	8/12/2016 7:35 PM
7	More on economic return - long time studies if available	8/12/2016 9:41 AM
8	Planting mixtures Planting rates of mixtures ROI	8/12/2016 5:01 AM
9	Planting data showing options of when and how to plant cover crops.	8/11/2016 8:24 PM
10	Economics. . It is all about money.	8/11/2016 7:43 PM
11	north cover crops and working with heavy soils-	8/11/2016 5:33 PM
12	Cover crops and useage in the Great Plains	8/11/2016 3:59 PM
13	Forage/hay related agronomic information	8/11/2016 2:45 PM
14	alfalfa and Bi color.	8/11/2016 1:07 PM
15	whats new? whats better?	8/11/2016 1:05 PM
16	how to grow our own nitrogen	8/11/2016 12:32 PM
17	More specific to what part of the US where the crops are grown.	8/11/2016 12:06 PM
18	cover crops on clayey soils cover cropping on cool, humid soils	8/11/2016 12:01 PM
19	Effects of and methods of interseed inch into corn and beans	8/11/2016 11:58 AM
20	Termination procedures for cover mixes.	8/11/2016 11:26 AM
21	Using peas and oats/ Tripper as cover crops.	8/11/2016 11:02 AM
22	Termination, species diversity	8/11/2016 11:01 AM
23	What about buckwheat, does it fit in anywhere?	8/11/2016 10:57 AM
24	insects	8/11/2016 10:51 AM
25	measurements of changes to soil health (not just om) based on long term planting of cover crops Soil measurements based on planting different cocktails	8/11/2016 10:50 AM
26	Mixes, Applying at corn V5-V7 (at sidedress), shade tolerance of cover crop species	8/11/2016 10:50 AM
27	More specifics on Sunn Hemp	8/11/2016 10:45 AM
28	In north central region, planting cover crops before removal of fall cash crop can be difficult. Would like to know methods for earlier planting of cover crops.	8/11/2016 10:41 AM
29	As much as you can. Rye is our predominate one after corn and beans. What is best to add to it and at what date.	8/9/2016 7:10 PM
30	I would like to learn more about how effective cover crops are at suppressing weed growth in various cropping systems.	8/9/2016 10:45 AM
31	integrating weed control for market crop with cover crop specific benefits of specific cover crops	8/9/2016 10:07 AM

Cover Crops for Ag Professionals Survey

32	Seeding methods	8/9/2016 9:15 AM
33	Planter adjustments and attachments for planting corn and soybean after cereal rye cover crops Terminating cover crops	8/8/2016 3:04 PM
34	Dig deeper into solid evidence rather than the anecdotal information that we have been seeing in this front. I would also appreciate a serious study and discussion of the scale an process of cover crop use implementation that is necessary given the language of the nutrient reduction strategies within the Mississippi basin by many states. Current levels of adoption vs the desired levels within the near horizon are worlds apart, and I haven't heard this dilemma addressed.	8/8/2016 10:57 AM
35	More information on cover crop mixes and which is best under different scenarios	8/7/2016 11:26 AM
36	Nutrient status of soils having been under cover crops as opposed to fallow soil.	8/6/2016 7:56 PM
37	corn\bean rotation in wi	8/6/2016 8:22 AM
38	?	8/6/2016 6:14 AM
39	Continue to use farmers who are using cover crops especially the ones who are keeping data of progress.	8/5/2016 4:01 PM
40	Cover crops in more arid environments	8/5/2016 1:53 PM
41	Cover crops effects on N and P cycling and water quality	8/5/2016 12:12 PM
42	any and all	8/5/2016 8:26 AM
43	Forage as a secondary use	8/4/2016 4:42 PM
44	Cover crops for Florida and sandy soils	8/4/2016 3:31 PM
45	fitting cover crops into crop rotations especially on surface irrigated cropland. Research on the impact CC's have on yield, soil health and disease issues.	8/4/2016 1:34 PM
46	profitability	8/4/2016 10:13 AM
47	Interseeding Covers in June, Planting into perennial covers (i.e. clovers),	8/4/2016 9:07 AM
48	Grazing cover crops	8/4/2016 9:04 AM
49	more on best practices going to corn, termination BPs, etc. Most of my service calls in CC were around this	8/4/2016 8:06 AM
50	varieties that can grow in a shorter period of time if we have a delayed harvest	8/4/2016 7:17 AM
51	not sure	8/3/2016 10:10 PM
52	1. What benefits have been found for cover crop mixtures & tips for selecting the CCs 2. The effect Brassica CCs have on soil microbes, esp. plant-damaging ones & which species are best at this & in what situations.	8/3/2016 7:07 PM
53	Open	8/3/2016 3:54 PM
54	Emphasis on soil health and savings in fertilizers!	8/3/2016 3:16 PM
55	I believe in the benefits of cover crops but concerned how to kill them in the spring. Also curious how cover crops will work with new soybean systems being developed (RR2Xtend, Enlist, Balance GT).	8/3/2016 1:36 PM
56	Nutrient Sequestration Using Cover Crops Economics of Cover Crops	8/3/2016 1:07 PM
57	PULSE CROPS	8/3/2016 12:50 PM
58	continue about tillage radish	8/3/2016 12:47 PM
59	a discussion of the possible benefits of multiple species cover crops over single species	8/3/2016 12:46 PM
60	Cover crops between rows in orchards (Citrus, Pecans, Peach etc.	8/3/2016 12:32 PM
61	1) Inter-seeding cover crops into standing corn 2) How to use cover crops as part of the weed control program. 3) How much Nitrogen or other nutrients do cover crops contribute to the next crop.	8/3/2016 11:54 AM
62	The relationship between cover crops and productive forage for cows, goats and sheep, respectively. We need to make cover crops economically viable in the short run, as well as the long run. If cover crops are removed as forage off the farm, what is the net effect on soil health? I am located in PA, so cover crops for this area would be most useful.	8/3/2016 11:35 AM
63	More on long term soil improvement and economic sustainability	8/3/2016 11:26 AM
64	I would like to see something on cover crops in the Mid-South (AR, MS, TN)	8/3/2016 11:18 AM

Cover Crops for Ag Professionals Survey

65	Problems with cover crops, ex can they plug drain tile?	8/3/2016 10:17 AM
66	Case studies on economics - how are farmers "making them pay". Examples that cut across many farmers - i.e. I've heard many stories of farmers eliminating one herbicide pass b/c the cover crop suppresses weeds in the early season.	8/3/2016 10:17 AM
67	More on integrating livestock into cropping/cover cropping systems, addressing potential compaction problems, stocking rates, how much residue to leave, etc.	8/3/2016 9:35 AM
68	Use of cover crops in semi arid regions, and thier potential to diversify cropping systems that are traditionally limited.	8/3/2016 9:30 AM
69	Impact on subsequent crop fertilization, especially nitrogen	8/3/2016 9:20 AM
70	More test plots and historical data for corn-bean rotations	8/3/2016 8:37 AM
71	Not sure	8/3/2016 8:32 AM
72	more economics of cover crops	8/3/2016 8:23 AM
73	effectiveness of different covercrops in N retention	8/3/2016 8:17 AM
74	Cover crop mixes and which ones slow run off and filter the best. Also the soil quality benefits and more on soil microbiology.	8/3/2016 8:12 AM
75	herbicide planning with cover crops, or disease and pest impacts with the use of cover crops.	8/3/2016 8:11 AM
76	Cotton and crops in the south. Not all farmers grow only corn and soybeans and all farmers are not farming in the Midwest.	8/3/2016 8:11 AM
77	Economics, organic matter, N scavenging, interseeding in corn @ V6 stage.	8/3/2016 7:33 AM
78	introduction to soil health tests	8/3/2016 7:25 AM
79	Best cover crops for rotational use with corn & bean Grazing cover crops Herbicide sensitivities of cover crops	8/3/2016 6:59 AM
80	Buckwheat	8/3/2016 6:56 AM
81	We need "soil health" topics, not "cover crop" topics. They are not synonyms. Cover crop use in a tillage-based system is NOT soil health, just temporary, seasonal, partial erosion mitigation.	8/3/2016 6:23 AM
82	Cover crop mixes- what works and where geographically. Application- methods and timing. Cover crops and plugged tile systems.	8/3/2016 6:11 AM
83	Herbicide control of cover crops Grazing of cover crops Seed source for cover crops Soil microbial improvement/beneficial activity with cover crops	8/3/2016 4:40 AM
84	Inter seeding in standing crops	8/3/2016 4:26 AM
85	Cover crop for cattle feed / grazing.	8/2/2016 9:17 PM
86	More information on which types of plant species are the most desirable to be used under various situations.	8/2/2016 7:57 PM
87	-cover crops in dry areas 12-15" rainfall -currently wheat-chemical fallow rotation -more on the economics	8/2/2016 6:59 PM
88	Looking beyond the beginning of cover crops. I have become comfortable with single species, why should move to mixes?	8/2/2016 6:56 PM
89	Cost of establishment, erosion control benefits	8/2/2016 6:33 PM
90	Soil Health & erosion	8/2/2016 6:33 PM
91	Tropical cover crops for Hawaii	8/2/2016 5:53 PM
92	Cover Crop planting methods.	8/2/2016 5:27 PM
93	late season establishment after potatoes, sugar beets, etc.	8/2/2016 4:30 PM
94	Evaluations	8/2/2016 4:14 PM
95	Methods for establishing cover crops before harvest of main crop, especially corn. Grazing cover crops - best practices and limitations	8/2/2016 3:53 PM
96	Building a sound cover crop recommendation for a grower that will fit their particular field and fill their program requirement for the CSP Program through NRCS.	8/2/2016 3:51 PM
97	As usage increases time will become more of a limiting factor. How about discussing the current and future methods of seeding and the effectiveness of aerial, drilled, dry broadcast, hydro seeded and air seeded methods.	8/2/2016 3:48 PM

Cover Crops for Ag Professionals Survey

98	Zone related cover crops influence. We in the north have a shorter season and much less time for the cover crops to grow after corn and beans	8/2/2016 3:39 PM
99	Seeding cover crops into an existing crop.	8/2/2016 3:34 PM
100	UAV scouting of cover crops	8/2/2016 3:31 PM
101	Herbicide carry over	8/2/2016 3:28 PM
102	Economics of cover crops and no till/strip till and benefits of each cover crop variety	8/2/2016 3:26 PM
103	Ones for quick soil stabilization on roadsides and mine reclamation	8/2/2016 3:23 PM
104	tile damage	8/2/2016 3:19 PM
105	Companion Cover Crops	8/2/2016 3:16 PM
106	Winter stockpiled grazing on cover crops, especially using center pivots to provide for each days feed.	8/2/2016 3:09 PM
107	perennial options	8/2/2016 3:09 PM
108	Anything relatively new in the topic to include specifics for the Midwest where challenges arise based on short growing seasons.	8/2/2016 3:09 PM
109	Seeding dates and best mixtures to use in Northern Illinois. Seeding methods that work best.	8/2/2016 3:08 PM
110	Got to show profitability otherwise no adoption. I know more grain farmers than livestock farmers.	8/2/2016 3:08 PM
111	Pros and Cons of each major cover crop used in my area.	8/2/2016 3:07 PM
112	more on graseing cover crops	8/2/2016 3:05 PM
113	-companion planting for crop insect control above and below ground - preventing crop fungal diseases	8/2/2016 3:04 PM
114	Challenges using cover crops in an organic system and how to overcome them.	8/2/2016 3:03 PM
115	Push the economic data collected and statistically analyzed ... need real \$ data.	8/2/2016 3:02 PM
116	Cover crop nutrient uptake & nutrient cycling, reductions in nitrate leaching	8/2/2016 2:59 PM
117	More details on establishment, termination, designing blends for various scenarios and how to change crop rotations to better suit their inclusion.	8/2/2016 2:57 PM
118	effect on soil quality	8/2/2016 2:56 PM
119	more on affect on bottom line over 3-5 years	8/2/2016 2:55 PM
120	Advanced cover crop techniques- planting legumes in Corn in Iowa at sidedress, for example.	8/2/2016 2:52 PM
121	How to prepare the correct cover crop selections/seed mixture for specific results. Costs involved in this prep.	8/2/2016 2:52 PM
122	We had some slug issues this year in the Southern MN area. Would be good to learn more about that. As always talking about the economics is always a big interest. I would be very interested in seeing a conventional vs. no till (with covers) neighbors spread sheets next to each other on say 500 acres. Show that no till saves some money due to less tillage and chemicals but it may be spent on cover crops. But the money being spent on cover crops is going to help the environment...	8/2/2016 2:49 PM
123	Cover crops to a corn and soybean rotation in the Midwest. I work in Wisconsin.	8/2/2016 2:47 PM
124	Use of multi species cover crops.	8/2/2016 2:46 PM
125	CC nitrification in soil.	8/2/2016 2:44 PM
126	establishing cover crop mixes and grazing cover crops.	8/2/2016 2:41 PM
127	Control of vols and other rodents. Too many beans missing this year. Importance of drainage with longer lasting cover crops, allowing for timely kill and planting date.	8/2/2016 2:40 PM
128	Interseeding into V4-V6 stage corn	8/2/2016 2:38 PM
129	How to apply in garden settings with no or minimal tractor equipment.	8/2/2016 2:37 PM
130	how best to improve soil health and the easiest and most meaningful ways to actually objectively measure (and measure change) in soil health parameters.	8/2/2016 2:37 PM
131	Southern rotations for nematode control	8/2/2016 2:37 PM
132	Cover crops and roller crimper technology	8/2/2016 2:37 PM

Cover Crops for Ag Professionals Survey

133	Cost benefit of intercropping in corn and soybeans. Long-term cost analysis of cover cropping in corn, soybeans and wheat.	8/2/2016 2:36 PM
134	cover crops for forage production systems	8/2/2016 2:35 PM

Q6 Would you be interested in attending the in-person event?

Answered: 227 Skipped: 0

Answer Choices	Responses	
Yes	43.17%	98
No	56.83%	129
Total		227

Q7 Would you like us to email you information about the cover crops events once it is available?

Answered: 227 Skipped: 0

Answer Choices	Responses
Yes	87.67% 199
No	12.33% 28
Total	227

Q11 Did you learn a specific practice or principle?

Answered: 145 Skipped: 82

Answer Choices	Responses
Yes	31.03% 45
No	68.97% 100
Total	145

#	If yes, what was the practice or principle?	Date
1	Issues of weed management in cover crops.	8/17/2016 2:30 PM
2	SCN dilution and radishes.	8/11/2016 8:26 PM
3	rotations	8/11/2016 1:08 PM
4	Refresher of current knowledge	8/11/2016 11:14 AM
5	Learned more specifics on crops we do not grow	8/11/2016 10:47 AM
6	it was a while ago and info in file to review	8/9/2016 10:08 AM
7	Would have to review the webinar to know exactly which practices I learned about that I didn't know already.	8/8/2016 2:34 PM
8	Need to go back on the seminar	8/6/2016 7:57 PM
9	manure is an important part of the mix	8/5/2016 4:02 PM
10	I am sure I did but do not recall at this time-in general the series was very infomative.	8/4/2016 1:35 PM
11	EACH SITUATION MAY REQUIRE DIFFERENT CROP/TREATMENT	8/3/2016 12:52 PM
12	more specific blends	8/3/2016 12:48 PM
13	Reinforced some of the practices previously read about, especially cover crop species.	8/3/2016 12:34 PM
14	importance of insect scouting when using cover crops	8/3/2016 11:55 AM
15	diversity of cover crops is best	8/3/2016 11:36 AM
16	shallow cultivation when weeds are just emerging	8/3/2016 7:27 AM
17	Types of crops used	8/3/2016 7:12 AM
18	cover crops in living crops	8/3/2016 6:58 AM
19	low seeding rates is often best	8/3/2016 4:28 AM

Cover Crops for Ag Professionals Survey

20	keep trying different cover crops till finding some that work for your operation	8/2/2016 8:03 PM
21	Beware of herbicide carryover effects on cover crops	8/2/2016 6:42 PM
22	About cover crop species	8/2/2016 3:27 PM
23	sound agronomic practices & 4 R's have been recommended to clients for many years	8/2/2016 3:05 PM
24	herbicides injurious to cover crops	8/2/2016 3:03 PM
25	weed control issues	8/2/2016 2:58 PM
26	Likely learned something. it has been too long to remember what exactly.	8/2/2016 2:50 PM

Q12 Did you recommend it to your clients to implement or implement it yourself this season?

Answered: 145 Skipped: 82

Answer Choices	Responses
Yes	43.45% 63
No	56.55% 82
Total	145

Q13 Would you be willing to share the results?

Answered: 64 Skipped: 163

Answer Choices	Responses
Yes	18.75% 12
No	81.25% 52
Total	64

#	If yes, please provide a brief description and your email address in case we need to follow up with you.	Date
1	unknown at this time	8/11/2016 2:36 PM
2	local AC, DC, Extension, and Managing Professionals mmsoil77@gmail.com	8/11/2016 1:09 PM
3	Planted a few acres of cereal rye, crimson clover, and winter peas in the fall after harvesting corn. I sprayed and killed the cover crop in late in mid May prior to planting beans. The beans in those areas did not do as well as the area without cover crops. Cover crop appeared to stunt the growth of the soybeans.	8/11/2016 10:46 AM
4	we had a temendous increase of cover crops planted.	8/5/2016 4:03 PM
5	jamesring450@hotmail.com	8/3/2016 12:48 PM
6	I since retired from NRCS so I am out of the loop now.	8/3/2016 12:35 PM
7	myles.elsen@mn.usda.gov	8/2/2016 2:51 PM

Q14 Will you recommend it to your clients to implement or implement it yourself in the future?

Answered: 82 Skipped: 145

Answer Choices	Responses
Yes	74.39% 61
No	25.61% 21
Total	82

#	If no, why not?	Date
1	Not in an advisory position	8/17/2016 2:30 PM
2	we just dont have that many people yet that are trying cover crops.	8/11/2016 11:04 AM
3	no clients and our plan already made for next year	8/11/2016 10:44 AM
4	Not a CCA	8/8/2016 3:05 PM
5	I'm not in an advisory role	8/4/2016 4:11 PM
6	Not enough new information	8/4/2016 2:00 PM
7	Interest in cover crops in my area is very limited at this time.	8/3/2016 11:19 AM
8	Still trying to analyze the costs and benefits and how it seamlessly could be implemented. Time constraints biggest issue.	8/3/2016 6:14 AM
9	still researching on use of practice in my particular area.	8/2/2016 7:00 PM
10	The link for the presentation did not take me to the correct presentation	8/2/2016 3:57 PM
11	I have been already recommending the practices	8/2/2016 3:06 PM
12	doesn't suit our region that well	8/2/2016 3:04 PM
13	Don't have clients, not in a position to implement	8/2/2016 3:00 PM
14	No opportunity to do so.	8/2/2016 2:58 PM
