

Post-Project Verification Tool for Educators Working with Grower Collaborators

1. Did you work with grower collaborators who participated in on-farm trials? **Yes** **No**

2. If so, how many grower collaborators did you work with? _____

3. Were the on-farm trials successful in your opinion?
 Yes **No** **DK (Don't know)**

4. Did your participating growers adopt changes in berry soil and nutrient management practices as a result of participating in the project? _____
 Yes **No** **DK (Don't know)**

5. As a result of working with growers doing on-farm trials do you yourself feel more confident in:
 - a. Assisting commercial berry growers with interpretation of soil analysis results?
 Yes **No** **DK (Don't know)**

 - b. Assisting commercial berry growers with interpretation of Cornell soil health test results?
 Yes **No** **DK (Don't know)**

 - c. Assisting commercial berry growers with interpretation of foliar analysis results?
 Yes **No** **DK (Don't know)**

 - d. Making field identification of nutrient imbalances in berry crops?
 Yes **No** **DK (Don't know)**

 - e. Suggesting corrections for berry crop:
 - i. Soil deficiencies **Yes** **No** **DK (Don't know)**

 - ii. Foliar deficiencies **Yes** **No** **DK (Don't know)**

6. Do you feel more confident in:
 - a. Discussing soil health assessment techniques?
 Yes **No** **DK (Don't know)**

 - b. Making soil health recommendations to berry growers
 Yes **No** **DK (Don't know)**
