

Table 4. Yield of fruit and average fruit weight (minutes for one person to thin tree) of ‘Kosui’ Asian pear trees which had been sprayed with MaxCel[®] on 13 May 2008 in Northern New Jersey.

MaxCel [®] Concentration (ppm)	Yield (kg/tree)	Average fruit weight (g)
0	1.96 a ^z	61.3 a
200	1.82 b	79.9 ab
250	1.99 b	84.7 b

^z Means within a column with no letters in common are significantly different at $\alpha=0.05$ according to PDIFF .
