

Post-Project Verification Tool for Growers Participating in On-farm Trials

1. Did you find that the training improved your understanding of berry crop soil and nutrient management?

Yes No DK (Don't know)

2. Did you find that participating in an on-farm trial improved your understanding of berry crop soil and nutrient management?

Yes No DK (Don't know)

3. Have you implemented any of the techniques or made adjustments to your practices in the past 6 months based on your participation in the project?

Yes No DK (Don't know)

4. Which techniques/procedures have you implemented on your farm:

Technique/practice	Have done in the past	Have done as a result of this project/training	Plan to do soon as result of this project/training
Soil testing			
Leaf analysis			
Soil health testing			
Analysis-based fertilizer applications			
Soil health improvement methods (specify)			
Other (specify)			

5. Have you used knowledge learned from this project/ training in soil and nutrition management decisions for **other crops** on your farm?

Yes No DK (Don't know)

Technique/practice	Have done in the past	Have done as a result of this project/training	Plan to do soon as result of this project/training
Soil testing			
Leaf analysis			
Soil health testing			
Analysis-based fertilizer applications			
Soil health improvement methods (specify)			
Other (specify)
