

Earth Smart Program Participation Verification

Please check any of the ways you have used information learned through this project.

Incorporated new ideas from project into existing programming (e.g. workshops, presentation, field events, etc.)

Delivered new programming in project topic area (e.g. workshops, presentations, field events, etc.)

Used information learned in individual consultations with farmers

Incorporated information into fact sheets or other technical resources

Shared information from the project in newsletters, websites, or other media outlets

Shared resource materials from the project with farmers or others

Provided information about recommended program practices to farmers

Provided information about the pilot certification program (Earth Smart) to farmers

Provided a whole farm assessment to a local farmer

Recommended implementation of any program practices to a farmer (It doesn't have to be part of a certification effort on their part)

Do you plan to continue to promote recommended practices?

Other (please describe) _____

Please attempt to quantify the number of farmers you reached through your efforts indicated above (a reasonable estimate of farmer numbers is acceptable).

Please share additional information or description about your efforts that helps illustrate how this project benefited you in your educational efforts.

Was the training you received in either of the two workshops, and/or the materials useful?

Was the information gained used?

Please provide your name and contact information so we or SARE can follow-up if necessary.

Thank you so much for your participation in promotion of good agricultural practices!
